Many words are from L compounds, in which *sub*- (or often by assim. &c. *suc-, suf-, sug-, sum-, sup-, sur-, sus-*) expresses clearly or obscurely the ideas of lower position (*subagent, subordinate, subscribe, subsist, substance*), motion to this (*subject, subjugate, subjunctive, submerge, submit, subside, succumb, suppose, suppress*) or from this (*subtract, succinct, suspect, suspend, inspire*), covertness or secrecy or tacitness (*subaudition, suborn, summon, surreptitious*), inclusion (*subsume*), closeness (*subjoin, subjunctive, sublime, subsequent, suburb, succeed*), inferiority (*subaltern, subserve, succentor*), support (*subsidy, subvention, succour, suffer, suffice, sustain*), addition (*suffix, supplement*), or substitution (*substitute, supplant, surrogate*).

2. *Sub*-, without the above changes into *suc- &c.*, is also used as a living pref. with more definite senses:

a. On anal. of L *subterraneus* underground (*sub terra* below the earth) adjj. are formed from *sub*, the abl. of any L noun, & an adj. ending, esp. as anat. terms with sense *situated under the* — (*substernal* f. L *sub sterno* below the breastbone); in others *sub*- has the secondary sense *below in degree* (*subnormal* below normal), & in some having this sense, as in b below, *sub*- is prefixed directly to a derived E adj. (*subhuman* less than human, as from *sub homine*).

b. On anal. of L *subacidus* slightly acid,

Adj. in *-able, -ed, & -ing*, are identical in form with wds in UN-², with or without material difference in meaning; *undoable, unstrappable*, may mean 'that can be undone, unstrapped', or 'that cannot be done, strapped'; *unbracing* may mean 'that unbraces' or 'that does not brace'; an *unbending* person is one fond of or averse to relaxation; an *uncoiled* rope must be coiled before it can be *uncoiled*; an *unbridled*¹ horse may (*un-¹*) or may not (UN-²) have been previously bridled, in either case he is now *unbridled*². As a rule, the UN-² forms of such adj. are current, the others not. The stress in the foll. wds is not marked, being the same as in the simple vb or n. or, where that is monosyllabic, falling on the second syllable (*undeceive, unsay*); but p.p.p. or adj. in *-ed*, whether in *un-¹* or UN-², tend in attrib. use to take stress on *un-* (cf. -ED²), as *an unmasked villain, an unmuzzled hound, villain was unmasked, dog was unmuzzled*.

[OE, cf. *Du. ont*, *G. ent*, *Goth. and-* (as in ANSWER²)] **un-²**, prof. giving negative sense to adj. with their derivative nn. & adv., & to a miscellaneous group of nn. chiefly of independent formation.

(1) Of the many adj. formed with *un-*, esp. of those in *-able*, *-ed*, *-ing*, for which cf. **UN-¹**, only a selection is here given. The sense of *un-* is either simply 'not' (as in most adj. in *-able*, *-ed*, *-ing*, & in some others, as *unofficial*) or more commonly 'the reverse of', with implication of praise, blame, &c. Between *un-* & **IN-²** a differentiation has been suggested according to which *inartistic* means 'contrary to rules of art', 'such as an artist would condemn', & *unartistic* means 'not concerned with rules of art'; & pairs of words may be found that bear out the distinction, esp. where one of the pair has long been restricted to the proposed sense & the other has been manufactured or revived to supply its deficiencies (*immoral*, *unmoral*). But the purely neutral sense thus ascribed to *un-* is not that found in many of the most familiar adj. (*unbeautiful*, *unfair*, *ungraceful*, *ungracious*, *unkind*, *unjust*, *ungenerous*, *untrue*, *unscrupulous*, *unmanly*, *unscholarly*, *unladylike*, *unchristian*), including some of the exact type of *unartistic* (*unscientific*, *unphilosophical*): when we say that a thing is *untrue*, we do not mean that it does not matter for our purpose whether it is true or not, but that it is culpably inconsistent with truth. Apart from the adj. in *-able*, *-ed*, *-ing*, both *un-* & *in-* more commonly have this implication of

blame &c., the purely neutral sense being often given by NON-(5). IN-² is preferred to *un-* with certain terminations of L orig., e. g. *-ate, -ile, -ant, -ent, -ble* (exc. *-able*, now a living E suf.), is for the most part archaic with *-ed*^{1, 2} (*indigested* &c., but cf. *inexperienced*), and is not used with *-ing, -ful, -like, -ly, &c.* Derivatives in *-ly, -ness, -ity, &c.*, are briefly recorded. stress follows that of the simple adj.; but for adjj. in *-ed* see UN-¹. ADDENDA
TO THE 1929 EDITION OF
THE CONCISE OXFORD DICTIONARY
BY
LT COL. H. G. LE MESURIER, C.I.E.

NOTE

THESE addenda consist of (1) words not recorded in the body of the dictionary, and (2) further senses and constructions of words already treated. Additions of the latter kind, being arranged as appendages to existing articles, are readily distinguished by the absence of pronunciation, grammatical description, and etymology, from the independent articles dealing with new words. To save space derivatives have not been given where their form and sense are obvious.

References to articles in this supplement are in italics preceded by an asterisk, thus: **Kanarese*. All other references are in SMALL CAPITALS.

During the past few years the average Englishman's vocabulary has been considerably enlarged by his newly-acquired habit of listening in; this is especially true of words used in Diplomacy, Politics, Philosophy, Science, and Medicine. The cinema, now vocal, has made him familiar with many Americanisms at the meaning of which he has often to guess; and he sees in his paper, owing to the increasing interest taken in the country, many Indian and Anglo-Indian expressions that are strange to him. In the compilation of this supplement these factors have been taken into account. All words about the rightful inclusion of which there appeared to be any doubt were referred to Mr H. W. Fowler for approval, and he gave his decisions with the superb common sense and breadth of view that were so characteristic of him. He did not live to see the completed work, but the compiler trusts that, even without the corrections he had hoped to receive from his teacher and friend, it will not be thought a wholly unworthy tribute to the memory of one whom to know was to love.

'Mr. Fowler in his delightful dictionary . . . must delight everybody who ever had a thought for language; for he talks and reasons and discriminates, and has on every page some persuasive, humorous little essay, some thrust of raciness on a point of style. A work of sterling soundness and essentially English common-sense—a work, too, in the presence of which every journalist must tremble.' *Times Literary Supplement*.

A SHORT HISTORY OF ENGLISH LITERATURE

By ÉMILE LEGOUIS

Translated by V. F. BOYSON and J. COULSON

(7½" × 5¼"), pp. 416. *Fully illustrated*. 6s. net.

ÉMILE LEGOUIS, Professor of English Literature in the Sorbonne, Paris, here presents a new survey of the whole history of English literature, from Anglo-Saxon times to the present day. As the work of a French scholar of the highest distinction, carried out with characteristic French acuteness and lucidity of statement, it has outstanding value for English readers. Attention is focused upon the greater writers, but Professor Legouis has succeeded in presenting a consecutive view of the main course of development and leading characteristics of every period of English literature. Within a framework of division by period, the treatment follows the subject division of poetry, prose, and the drama.

THE OXFORD HISTORY OF ENGLAND

has been undertaken in the belief that the time has come for a new full-scale survey of English history. It is now generally agreed that economic, intellectual, and social developments are at least as important as the political and constitutional happenings with which the older histories are mainly concerned. This point of view will be reflected in the OXFORD HISTORY OF ENGLAND; while political and constitutional history will be in no way neglected, full space will be given to the description of economic conditions, manners and social life, and the arts and sciences.

The contributors are historians of high authority. Every volume will be based on a study of original authorities, will incorporate the results of the most recent specialist research, and will be equipped with maps, and with an exceptionally full critical bibliography. The average length of volumes will be from 450 to 500 pages, and the published price of each volume will be 12s. 6d. net.

The first volume to appear will be

THE LATER STUARTS (1660-1714)

THE CONCISE OXFORD FRENCH DICTIONARY

Compiled by
ABEL CHEVALLEY
AND
MARGUERITE CHEVALLEY

(7 $\frac{1}{2}$ " \times 5 $\frac{1}{4}$ ".) Pp. 928. *Illustrated.* 7s. 6d. net.

THE CONCISE OXFORD FRENCH DICTIONARY is a dictionary of modern French speech and literature, polite and popular, and of standard French literature.

It is based on an entirely fresh survey of the field, and so is free from a great deal of antiquated matter which lingers on in dictionaries originally produced in the nineteenth century. A special feature is the warning mark and comment attached to words which English speakers are likely to misuse. The editor, M. Abel Chevalley, a distinguished French critic and man of letters, whose untimely death in December 1933 prevented him from seeing the later parts of the book through the press, had spent many years in the reading of texts and the collection of materials. The final stages of the book were supervised by Madame Chevalley, his collaborator throughout, with the assistance of Mrs. Coulson, a member of the *Oxford English Dictionary* staff.

The Dictionary has been very carefully planned to give the maximum of useful information in the minimum of space, without sacrificing legibility by using microscopic type.
